

MINI ROTARY TILLERS

- > It is the most appropriate machine generally in terms of creating seedling planting bed and preparing seed bed in small scale orchards and fields.
- > It cultivates the soil by approaching to tree base and grapevine bodies, hence it decreases hoe workmanship.
- > It crumbles, mixes and puffs up the soil very well. By this means, it provides mixture of organic substances into the soil.
- > It mechanically wipes off the weeds and it causes no need for chemical struggle. It provides ENVIRONMENT-FRIENDLY solutions to you and your soil.
- > It is the most ideal tillage machine for low-energy, low type field, vineyard and garden tractors.
- > It takes its movements from tractor power take-off. Three points hanger order is easily connected to the tractor.
- > There are three different model options as fixed transmission box, mechanical shift and hydraulic shift.

Model	Working width (mm)	Working depth (mm)	Overall width (mm)	Overall height (cm)	Number of s (Piece)	Number of Blades (Piece)	Machine Weight (kg)	Machine Weight (kg)	P.T.O Shaft Rotations (max) (min-1)	Power requirement (HP)
A-MRT 800	800	150	1010	900	4	24	210		540	15
A-MRT 1000	1000	150	1210	900	5	30	230		540	15-20
