

 **ALPLER**

ROUND BALER

ALP-1230 / ALP-1240 / ALP-1247

- Wide collection mechanism.
- Perfect and dense shape with its alternating chopper, rotor and non-rotor versions.
- Thanks to the chopper system, it saves time and money for wet and dry materials.
- The inoculant system which can be integrated as an option, allows to keep nutrients and protein values for longer.

### SUPPORT BAR

With the support bar, bales gently release to field without any harm.

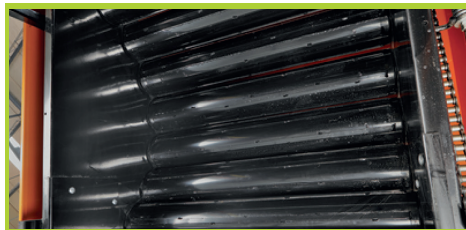

### PICK-UP SYSTEM

Pick-up system with directing support wheels for rough field conditions.

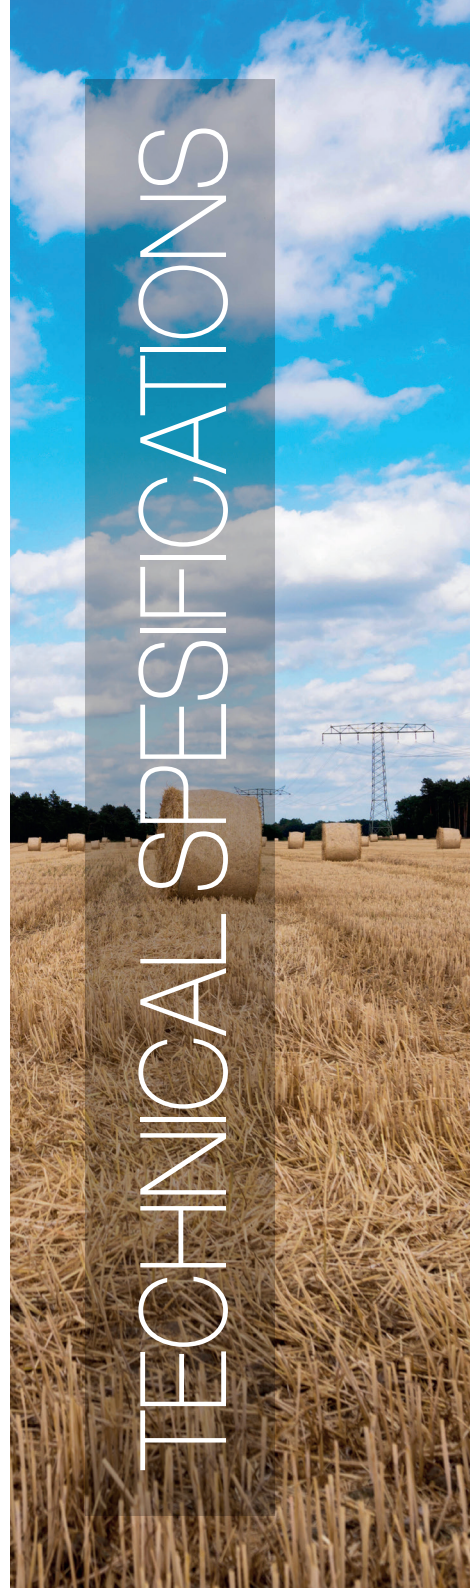

### HIGH STREAM ENTRANCE

Wide pick-up unit and rotor system for high stream entrance.

### HIGH PERFORMANCE

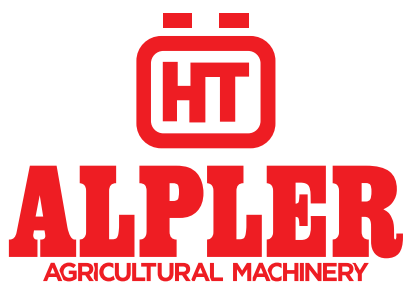

High quality and durable baler rollers provide high performance with low power consumption.
